Cancer cured by bio electron's laser acupuncture

The author, for the first time in recorded history have eliminated magnetic from regular electromagnetic electricity. He also created the next six steps described below. He did this by developing a proprietary way of reversed current RC to create what is bioelectricity. The device, he created is called the Kostovic Biotechnological Energizer, K-BTE Medical Laser Device. His center has successfully developed special current circuit and canceled magnetic from electromagnetic. This device extracts bio electron photons from H₂O electric fluid by wire and wirelessly. While using the K-BTE device therapist has absolute control of speed/frequency of these released and enriched bio electron photons. Bio electrons photons are converted into the strength of micro or nano amperes allowing the bio electricity to softly penetrate into the brain or any other physical organ with zero harm to the healthy cells. In the process of extracting bio electron photons from the electric fluid, it can include transference of hundreds of different natural acids as well as amino acids. Each biological agent BA is capable to transfer three to six different natural and amino acids, by enriched bio electron photons. These enriched bio electrons photons are wirelessly transferred through and olive oil coating on the skin enabling the bioelectricity to softly penetrate/bio electron photons always penetrate softly on the skin surface/deeply and efficiently targeting the specific ailing human tissue. This process is always skillfully directed into the body with the very gentle frequencies of micro and nano amperes allowing zero risk of negative consequences.

Biography

Nick Kostovic was graduated from the Split Gymnasium in 1969 with an Associate of Art's degree in Humanities and Science. He has combined Quantum Mechanics Physics and Electromagnetic Science and created K-BTE Medical Laser Device. He has canceled magnetic from industrial electromagnetic electricity and converted this into his discovery bioelectricity which has the ability to release bio electron's photons which become most efficient tool in healing process of any of human physical organs.
