

Brief Interview with Dr. Aruna Turaka (Editor)

Journal of Nuclear Medicine & Radiation Therapy

1. How many years have you been associated with the current research?
6 ½ years
2. What is the research topic you are working on now?
Lung and Lymphoma
3. What are attributes for a quality article?
Manuscripts supporting the research based on randomized studies and innovative techniques.
4. Do you have any research funding (NIH or other national funding) now?
No
5. When did you become an editor of OMICS Journal?
2 years
6. Where can the journal find the maximum scope in terms of niche?
Not sure of the question
7. What is your greatest career accomplishment?
NCI-LCWGC member (Lung working group committee member at NCI).
8. How does the published scientific content assist the potential researchers?
To design new trials/studies.
9. What is the purpose of serving as an editor?
Learning to be a leader, improve the research skills from broader variety of specialties, learning to be patient, calm and honest.
10. Do you have any patents?
Not sure what it means
11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?
Yes, many

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Yes, after my board exams at the end this month.

13. How would you define your experience with OMICS Group?

so far excellent

14. Your opinion on conducting Editorial Board meetings at related Conferences?

I am looking forward to it, never attended so far.

15. Would you recommend OMICS to your friends or colleagues?

Yes, to all my colleagues, nationally and internationally.

16. How do you differentiate Journal of Nuclear Medicine & Radiation Therapy with other journals in the field?

We need to get the NIH publishers permission to make it pubmed release with impact factor given to the articles.
