

# **Brief Interview with Dr. P.K. Singh (Editor)**

## **Journal of Biodiversity, Bioprospecting and Development**

1. How many years have you been associated with the current research?

25 years

2. What is the research topic you are working on now?

Characterization, conservation and genetic improvement of animal genetic resources in general and cattle genetic resources in particular.

3. What are attributes for a quality article?

It must be innovative, leading to certain outcomes, which is of utility to mankind.

4. Do you have any research funding (NIH or other national funding) now?

Yes, I am working in an Institute financed by Government of India.

5. When did you become an editor of OMICS Journal?

2013

6. Where can the journal find the maximum scope in terms of niche?

In all the fields of Science and Technology specially to environment and medical research.

7. What is your greatest career accomplishment?

Registration of many cattle breeds in India, step towards completion of inventorization, management and conservation of Indian cattle genetic resources.

8. How does the published scientific content assist the potential researchers?

Published literature becomes the base for future innovations.

9. What is the purpose of serving as an editor?

To popularize the outcome of research to the society for their benefits.

10. Do you have any patents?

No, However I am In-charge of the unit which manages the patents at National Bureau of Animal Genetic Resources at Karnal (India). In last three years assisted the scientists for filing of 14 patents to Indian Patent Office.

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

I am not aware of full lists of Journals of OMICS, therefore, not sure. I have published 80 research papers so far.

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Depends on the outcome of my research.

13. How would you define your experience with OMICS Group?

Enriched with good quality research papers.

14. Your opinion on conducting Editorial Board meetings at related Conferences?

It will be more convenient to all the editors; however, my participation will depend on permission from my organization and grant of funds to attend such conferences and meetings.

15. Would you recommend OMICS to your friends or colleagues?

I persuade my friends to publish their article to OMICS journal, so as to get international circulation of their research findings.

16. How do you differentiate Journal of Biodiversity, Bioprospecting and Development with other journals in the field?

It is a new Journal covering the biodiversity and relating it with development, therefore, see good future of this journal.
