

# Brief Interview with Dr. Haisheng Peng (Editor)

## Journal of Biodiversity, Bioprospecting and Development

1. How many years have you been associated with the current research?

I graduated from Harbin Commercial University in 2000 and my major is Pharmaceutical Engineering. I have focused on drug delivery system over 10 years.

2. What is the research topic you are working on now?

My topic is design of nanocarriers based on biomolecular mechanism.

3. What are attributes for a quality article?

Here is my publication in 2014 as a corresponding author. a. Tamoxifen Embedded in Lipid Bilayer Improved the Oncotarget of Liposomal Daunorubicin in vivo. J. Mater. Chem. B. 2014; b. The use of antibody modified liposomes loaded with AMO-1 to deliver oligonucleotides to ischemic myocardium for arrhythmia therapy. Biomaterials. 2014 ; c. Recent advances in heart-targeted nanoscale drug delivery system. J. Biomed. Nanotech. 2014 ; d. The Role of Glucose Transporters in Distribution of Liposomes Modified with P-Aminophenyl -  $\alpha$ -D- Mannopyranoside in Mice Brain. J. Control. Release. 2014

4. Do you have any research funding (NIH or other national funding) now?

No. I just got several provincial funding in China.

5. When did you become an editor of OMICS Journal?

In 2014.

6. Where can the journal find the maximum scope in terms of niche?

I have no idea now. I think high impact factor will increase the scope of the journal to some extent and science cited index also help broaden the range of eyesight.

7. What is your greatest career accomplishment?

I make my research well. My hypothesis was confirmed and accepted by peer in my field.

8. How does the published scientific content assist the potential researchers?

Some time, you will get the new idea from other peers' paper and help fix your own problem.

9. What is the purpose of serving as an editor?

Learn some knowledge, know the advantage of my field, and make friends with some adepts. Certainly, I also can review papers in my field and evaluate the scientific meaning of their studies.

10. Do you have any patents?

Yes.

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

I remember I have reviewed one paper for you.

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

I can continue to review manuscript for your journal and hope to submit my research to some journal.

13. How would you define your experience with OMICS Group?

Just on the way of begin.

14. Your opinion on conducting Editorial Board meetings at related Conferences?

I can give some opinion after I know the name of conference and other details.

15. Would you recommend OMICS to your friends or colleagues?

Yes, when I grab some chance, I'd like to introduce my friend to the journal board.

16. How do you differentiate Journal of Biodiversity, Bioprospecting and Development with other journals in the field?

I think this journal include many field and can accept many fields of research.
