

Brief Interview with Dr. Jang-Yen WU

Journal of Bioengineering & Biomedical Sciences

1. How many years have you been associated with the current research?

Over 40 years

2. What is the research topic you are working on now?

Neuroscience , both basic and translational research.

3. What makes an article top quality?

New concept/idea.

4. What are the qualities you look for in an article?

Novelty and Originality.

5. Do you have any research funding (NIH or other national funding) now?

Yes.

6. When did you become an editor of OMICS Journal?

2012.

7. What is your greatest career accomplishment?

One of the most cited authors in the world listed by ISI in 2002.

8. How does the research published percolate through to practitioners?

Present at meetings, seminars etc.

9. What is the purpose of serving as an editor?

To help dissemination of quality scientific findings.

10. Do you have any patents?

Yes.

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

No

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

May be.

13. Do you have any trouble with OMICS Journals in the past?

No.

14. Would you recommend OMICS to your friends or colleagues?

Yes.

15. How do you differentiate Journal of Bioengineering & Biomedical Science with other journals in the field?

Scope.
