

Brief Interview with Dr. Julie M. Cunningham

Journal of Cytology & Histology

1. How many years have you been practicing and/or performing research?

23 years.

2. What is the research topic you are working on now?

Genomic basis of disease, pharmacogenomics.

3. What makes an article top quality?

Concise writing on very engaging, scientifically sound topics; ones that further the science.

4. What are the qualities you look for in an article?

Clear understanding of the literature, clear, concise reporting of hypotheses and why the approach was taken; not over interpreting data.

5. Do you have any research funding (NIH or other national funding) now?

Supported by 5 NIH grants.

6. When did you become an editor of OMICS Journal?

December 2009.

7. What is your greatest career accomplishment?

Being a critical part of a multi-national consortium seeking to understand the genetic basis of ovarian cancer.

8. What is the purpose of serving as an editor?

To ensure sound scientific reasoning and appropriate methods are used to answer the questions posed.

9. Do you have any patents?

No.

10. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

No.

11. Do you plan to contribute any editorials or papers to OMICS Journals in the near future?

No.

12. Do you have any trouble with OMICS Journals in the past?

No.

13. Would you recommend OMICS Group to your friends or colleagues?

Yes.
