

# Brief Interview with Dr. Michelle Bartlett (Editor)

## Journal of Sports Medicine & Doping Studies

**1. How many years have you been associated with the current research?**

10 years

**2. What is the research topic you are working on now?**

Anger & College Athletes; College Student Wellness

**3. What are attributes for a quality article?**

A top quality article will start off with a thorough lit review with recent literature. It will have perfect spelling, grammar, punctuation, etc. Its these small details that truly make the quality of the article. Further, sample size will be appropriate, the correct statistical procedures will be used, and all referenced articles will be relatively recent. Lastly, I like to see the author acknowledging their weaknesses and shortcomings of their study in the manuscript.

**4. Do you have any research funding (NIH or other national funding) now?**

AASP (Association for Applied Sport Psychology) Research Grant

**5. When did you become an editor of OMICS Journal?**

2012

**6. Where can the journal find the maximum scope in terms of niche?**

Most probably in the exercise physiology/ exercise science realm.

**7. What is your greatest career accomplishment?**

My university's College Outstanding Research Award 2010 & College Outstanding Service Award 2014

**8. What is the purpose of serving as an editor?**

A gatekeeper of knowledge being released to the public, ensuring that only quality research is disseminated.

**9. Do you have any patents?**

No

**10. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?**

Yes, an editorial and a research article

**10. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?**

Yes

**11. How would you define your experience with OMICS Group?**

Like anything, some pros and some cons. Overall, a valuable professional experience.

**12. Your opinion on conducting Editorial Board meetings at related Conferences?**

Would be useful, but there's so many disciplines represented among this editorial board that would probably be quite difficult

**13. Would you recommend OMICS to your friends or colleagues?**

Yes, although in my field we are generally not considerate of pay- to-publish journals.

**14. How do you differentiate Journal of Sports Medicine & Doping Studies with other journals in the field?**

n/a
