

Brief Interview with Yuanlin Song (Editor)

Pulmonary & Respiratory Medicine

1. How many years have you been associated with the current research?

20 years.

2. What is the research topic you are working on now?

Pulmonary infectious disease, acute respiratory distress syndrome.

3. What are attributes for a quality article?

Novel ideas, careful experimental design, multiple confirmation and validation.

4. Do you have any research funding (NIH or other national funding) now?

No.

5. When did you become an editor of OMICS Journal?

2 years back.

6. Where can the journal find the maximum scope in terms of niche?

To publish good article first them try to get into SCI journal list then to have the IF score.

7. What is your greatest career accomplishment?

Two patterns translated into product.

8. How does the published scientific content assist the potential researchers?

Previous experience could help future exploration.

9. What is the purpose of serving as an editor?

Finding the best science for publication.

10. Do you have any patents?

Yes.

11. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

Yes.

12. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Yes.

13. How would you define your experience with OMICS Group?

Good experience.

14. Your opinion on conducting Editorial Board meetings at related Conferences?

The best strategy is to have one at ATS/ERS meeting, but not independently. It is difficult to have all the editors at the meeting simultaneously.

15. Would you recommend OMICS to your friends or colleagues?

Will recommend them for reading and submission.

16. How do you differentiate Journal of Pulmonary & Respiratory Medicine with other journals in the field?

This journal focus on respiratory field with clear publication purpose.
