

2020 Announcement of Lung Diseases and Care September 24-25, 2020 | Paris, France

Alain L. Fymat

Professor, Department of Journal of Obstetrics, Gynecology and Women's Health (JOGWH), International Institute of Medicine and Science, California, USA, Email: alain.fymat@fiimas.org

Lung Care 2020 is esteemed to invite you to join the International Conference on Lung Diseases and Care which will be held from September 24-25, 2020 at Paris, France which includes prompt keynote presentations, Oral talks, Poster presentations and Exhibitions.

The International Conference on **Lung Diseases** and Care is the world's largest meeting dedicated to lung care. This trending event which brings together efficient international academic scientists, young researchers, pulmonologists, radiologists, pathologists and students making the congress a perfect platform to share experiences and knowledge, gain and evaluate emerging technologies in Lung Care Treatment and Research across the globe.

Paris, the cosmopolitan capital of France and one of Europe's largest cities, wherein the total Population accounts for 2.2 million people in the centre of the city, while 12 million people are residing in total in the main metropolitan area. Being located in the north of France onto the shores of the river Seine, it has a very well-deserved reputation image of being the most beautiful as well as sentimental of all urban communities concerned, overflowing with memorable affiliations and remaining endlessly powerful in the domains of culture, craftsmanship, style, nourishment and plan and parcels more. Being usually called up as the City of Lights, alongside the Capital of Fashion, it paves its way out to be the home to the world's top elegant and most luxurious fashion designers and cosmetics, to site as, Chanel, Dior, Yves Saint-Laurent, Guerlain, Lancôme, L'Oréal, Clarins.

In addition to the above-mentioned, it is also noticed to contain numerous iconic landmarks, such as the world's most taken in tourist site the Eiffel Tower, the Arc de Triomphe, the Notre-Dame Cathedral, the Louvre Museum, Moulin Rouge, and Lido, as a result, turning it into the most popular tourist destination in the world with approximately 45 million tourists visiting annually. Transport visits are given by different organizations: City Rama, Vision, and Paris bus are a couple of substantial companies. The administration of France is to a great extent communist. Each French native is managed medicinal services given by the state. Charges are high-at times very nearly 60 percent of aggregate wage-however, the legislature gives most social administrations. Life expectancy for men is seventy-four years and for ladies, it is 82 years. There is one doctor for every 361 individuals, and mortality is 5 per one hundred live births.

Lung Diseases and Care composed of well-organized scientific sessions: COPD, Immunotherapy, Chemotherapy and Radiotherapy for **Lung Cancer**, Lung Cancer Surgery and Transplantation, Lung Diseases and Respiratory Health, Awareness and Prevention of Lung Cancer, Pulmonary Hypertension and Therapeutics, Occupational & Environmental lung Disease, Prevention and control of lung disorders, Tobacco Smoking: The supporting journal of this conference i.e. Journal of Clinical Respiratory Diseases and Care. This Journal enables authors to provide and archive supporting information such as data tables, method information and figures in digital formats so that other scientists can use it as the references for their further research.

The target audiences are Directors, Board Members, Presidents, Vice Presidents, Deans and Head of the Departments, COPD Students, Scientists, Faculty, Medical Colleges, COPD Associations and Societies, Business Entrepreneurs and Pharmaceutical companies.

About Conference Series:

Conference Series LLC LTD is an open resource platform that conducts 3000+ global events including International Conferences, Workshops, Symposia, Trade Shows, Exhibitions and Science Congresses in all the major scientific disciplines, including Clinical, Medical, and pharmaceutical, Engineering, Technology, Business Management and Life Sciences across America, Europe, The Middle East, and Asia Pacific. It is reaching over 25 million researchers, scholars, students, professionals and corporate entities all over the globe.

World renowned scientists, Noble laureates and scholars in their respective fields grace our events as keynote speakers, panel experts, and organizing committee members. Our speakers gain global visibility and recognition as we take them straight to the audience through live streaming that broadcasts your spoken words all over the globe instantaneously.

With its world class state of innovation and information knowhow, our conferences facilitate knowledge dissemination through round table discussions, debates, workshops and, poster presentations. Corporate entities, academic and research institutions benefit from the dignitaries of world class, including CEOs and policy makers and can ripe the benefits through B2B meetings, networking, product launching and promotion.

We encourage our authors and conference participants through research and travel grants, young research awards and provide assistance in career development and research guidance through 1000+ collaborations with NGOs, scientific and academic agencies, institutions that have signed MoU with us.

Previous Conference:

World Congress on Advancements in Tuberculosis and Lung Diseases

Tokyo, Japan April 22-23, 2019

Conference Series is pleased to announce World Congress on Advancements in Tuberculosis and Lung Diseases will be organized during Tokyo, Japan April 22-23, 2019

Tuberculosis 2019 welcomes the multidisciplinary medical professionals, clinicians, and researchers associated with the diagnosis, treatment associated with the diagnosis, treatment and management of respiratory diseases and allied fields.
