

3rd International Conference on Central Nervous System and Therapeutics

Tammi McGill-Carter

Neuropsychiatrist, Private practice, USA, E-mail: clinicalneuroscientist21@gmail.com

We exuberantly and enthusiastically welcome all the delegates, speakers, exhibitors, sponsors and other participants from across the globe to participate in the **3rd International Conference on [Central Nervous System and Therapeutics](#)** which is scheduled to be held at Amsterdam, Netherlands during March 25-26, 2020. The conference has been conscientiously planned to fulfill the glorifying standards of our attendees and thus provides a fortunate forum that ensures thought-provoking and the path-breaking researches on [Central Nervous System](#) being conducted across the globe.

Our main motto is to stimulate the progress of efforts to explain the unblemished science behind the riddle of [Central Nervous System](#), their diagnosis, treatment and management including of an active seminar about the recent advances in the arena of Vascular Dementia.

Our last series of event 2nd International Conference on [Central Nervous System](#) and Therapeutics happened during June 10-11, 2019 at Edinburgh, Scotland with the theme "Reviving Innovations in Treatment of CNS Disorders". Overwhelmed response and active participation was received from the Organizing Committee Members of the conference along with the leading academic scientists, researchers, research scholars, students and academicians from the fields of Neurology, Neuroscience and neurotherapeutics who made this event a splendid success.
