## Introduction

**Clinical and medical case reports** is a peer reviewed Journal that publishes novel research work conducted as case reports in the medical field on various types of Cases, covering their respective clinical and diagnosis issues.

It is using Editorial Tracking for maintaining the quality in peer review process. Editorial Manager is an online manuscript submission, review and tracking system. Review processing is performed by the editorial board members of Journal of Clinical Case Reports or by outside experts. At least two independent reviewers approval followed by editor approval is required for acceptance of any citable manuscript. Authors may submit manuscripts and track their progress through the system, hopefully to publication. Reviewers can download manuscripts and submit their opinions to the editor. Editors can manage the whole submission/review/revise/publish process.
