The “3rd Global Summit on Oncology & Cancer” hosted by the Conference Series was held during **May 6-7, 2019** in **Tokyo, Japan** with the theme “New Chemotherapeutic Approaches for Treatment of Cancer” for investigators across the globe to meet and perceive new scientific innovations.

Conference Series wishes to acknowledge with its deep sincere gratitude to all the supporters from the Editorial Board Members of our Open Access Journals, Keynote speakers, students, delegates for their contribution to make this event a huge success. Benevolent response and active participation was received from scientists, experts, professors, researchers and students from the fields of [Cancer](#) those who involved in this successful event.

The conference was initiated with the honorable presence of the Keynote forum. The list includes:

- **Title:** From cytotoxic tumor-targeting to regulation of the [tumor](#) microenvironment: New considerations in pancreatic cancer chemotherapy

Joshua K S Ko, Hong Kong Baptist University, Hong Kong

- **Title:** Communicating clearly and effectively to patients

Thomas W Kozlowski, Asia Pacific Regional Office Singapore, Singapore

### WHAT PEOPLE SAY ABOUT GLOBAL CANCER 2019:

This is a successful conference. It promotes more communication among all participants and advances the progress of science.

By: Chia-Hung Sun

National Yang-Ming University

Global cancer Tokyo 2019, invited people involved in several areas of Cancer Medicine. A translational from benchside to bedside platform, was developed during the different sessions.

By: Daniel Gandía

National University of Buenos Aires

Participants of this meeting came from a diversified background worldwide and provide me with a panoramic view of different aspects of [cancer research](#). I have the privilege to be invited in sharing my works with the enthusiastic experts of the field. The interaction with delegates had provided the opportunity to establish collaborative chance in the future and helped me to gain precise friendship.
